

Luca Buselli

Peer-Review

I helped Greg, Carlos, Jay, and Sondor clean their script. I wrote all my script from scratch and therefore knew the fundamentals and useful stuff from the code. There are many things in the autogenerated script that I have no idea what they do, but I know all the important things needed for the script to work. I also tried my script in Sondor's computer. I sent him my code and the database ran without any issues.
